Re: Alpha Media Licensee LLC (AML)  
KAAN(AM), Bethany, MO  
Facility Identification Number: 31004  
Special Temporary Authority (STA)  
BESTA-20200305AAF

Dear Mr. Grossi:

This is in reference to the request filed on March 5, 2020. AML requests a third extension of the STA granted on August 15, 2018, to continue operating with reduced power to allow time to complete equipment repairs.<sup>1</sup> In support of the request, AML states that additional time will be needed before it can resume licensed operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and AML may continue to operate with reduced power. AML must use whatever means are necessary to

<sup>1</sup> KAA(AM) is licensed for ND operation on 870 kHz with 0.93 kW (daytime only).

protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. AML must submit an e-mail to my attention to note the date the station resumed licensed operations BL-19890626AE with negligible changes (including installing a new 1 kW transmitter if needed) to verify an FCC Form 302 filing is not required to update all operating parameters.

This authority expires on **October 5, 2020**.
